

 **EMPTYING SYSTEM**

SEMCO CARTRIDGES 900

PRODUCT DESCRIPTION

Pneumatically emptying system for **Semco-cartridges 900 cc.**

With swing-out mechanism for replacing cartridge.

With the hand-lever valve, the cylinder is to be driven slowly into the cartridge. The adjustment of the manometer changes the pressure onto the cartridge and therefore the flow-rate volume.

TECHNICAL DESCRIPTION

- ▶ Pneumatic-cylinder with throttle valve
- ▶ Pneumatically hand lever valve
- ▶ Pressure regulation with manometer 0 - 6 bar
- ▶ Swing-out mech. for replacing cartridges
- ▶ Size : 967 x 255 x 130 mm (L/W/D)

OPTIONS
